**DIRECTIONS FOR USE**

Important: Prior to use read all directions on this label and on the label of the product(s) being used. The product(s) label for specific usage and restrictions have precedence over directions for use referred to on this label.

**COMPATIBILITY**

AUSTEC SPRAYING OIL is compatible with a wide range of herbicides including: Atrazine #, Eclipse Herbicide, Grazon DS Herbicide, Starane 200 Herbicide, Tordon 75-D Herbicide, Tordon 242 Cereal Herbicide, Select Herbicide, Fusilade WG Herbicide, Haloxyfop, Broadstrike Herbicide, Garion 600 Herbicide, Lontrel 750SG Herbicide, Topik 240EC Selective Herbicide, Verdict 520 Herbicide, Fusion WG Herbicide, Targa Herbicide, Achieve Herbicide.

AUSTEC SPRAYING OIL is compatible with the following insecticides including: Predator 300 Insecticide, Tracer Naturalyte Insect Control.

AUSTEC SPRAYING OIL is compatible with cotton defoliant products including: Thidiazuron, Ethephon.

# When mixing with atrazine water dispersible granule formulations, agitation is required. Contact Grevillia Ag Pty Ltd or the manufacturer of the product(s) for more information.

**SITUATIONS**

**Broadacre cropping including the fallow (except sugarcane):** Where specified use 500mL AUSTEC SPRAYING OIL / 100L, applying a minimum of 250mL of AUSTEC SPRAYING OIL per hectare.

**Sugarcane and Cotton Defoliation:** Where specified use 1L AUSTEC SPRAYING OIL / 100L water applying a minimum of 500mL of AUSTEC SPRAYING OIL per hectare.

**Spot and High Volume Spraying:** Where specified use 500mL AUSTEC SPRAYING OIL / 100L water, applying to point of run-off.

**Horticulture:** AUSTEC SPRAYING OIL is compatible with Verdict 520 Herbicide for horticultural uses. Use 500mL AUSTEC SPRAYING OIL / 100L water, applying a minimum of 250mL AUSTEC SPRAYING OIL per hectare.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORIZED UNDER APPROPRIATE LEGISLATION.**

**WITHHOLDING PERIOD**

Adhere to the withholding period(s) specified on the label of the companion product(s) used.

**MIXING**

- These are general mixing instructions. Always follow the mixing instructions of each ingredient in the tank mix. Ensure product compatibility. Recommendations on other product labels take precedence over mixing instructions on this label.
- Add water to the spray tank to 10cm above the level of agitation and ensure the agitation device is working vigorously (there must be a minimum of 100L of water in the tank before any pesticide is added).
- If tank mixing, use the following general order for mixing partners: First add water dispersible granules (e.g. Eclipse), second add flowable formulations (e.g. Atrazine), third add emulsifiable concentrates (e.g. Starane 200EC), fourth add water soluble liquids (e.g. Lontrel Herbicide) and last AUSTEC SPRAYING OIL and other adjuvants.
- Between the addition of each ingredient allow at least one minute to ensure thorough mixing before the new tank-mix partner is added.
- Finally add AUSTEC SPRAYING OIL. Continue filling the tank to the required volume maintaining agitation at all times.
- Only mix sufficient spray solution for immediate use. Verdict 520 and any other tank-mixes should be applied immediately for best results.

**STORAGE OF SPRAY SOLUTION**

Agitate for 1 hour every 8 hours and agitate for 1 hour before spraying out where spray solution is not applied within 8 hours of mixing.

**CLEANING SPRAY EQUIPMENT**

The presence of the product(s) makes it essential for the spray equipment to be thoroughly cleaned between different applications. To rinse and decontaminate spray equipment refer to the relevant product labels for instructions.

**PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT**

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

**STORAGE AND DISPOSAL**

EXPLOSION WARNING: Apparently 'empty' containers may contain liquid and/or vapour residue which can be explosive if exposed to an ignition source at temperatures above 90°C. Such conditions may occur during cutting or welding. DO NOT cut or weld these containers. Explosion may cause injury or death.

**KEEP OUT OF REACH OF CHILDREN.**

Store in the tightly closed, original container in a securely locked, well ventilated place out of direct sunlight. DO NOT store near food, feedstuffs, fertiliser or seed. DO NOT re-use 5L or 20L containers. Triple or preferably pressure rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. If recycling, replace cap and return clean container to recycler or designated collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

For 110L refillable containers - Empty contents fully into application equipment. Close all valves and return to point of supply for refill or storage.

**SMALL SPILL MANAGEMENT**

Wear appropriate clothing whilst cleaning up small spills. Apply absorbent material such as earth, cat litter, sand or clay granules to the spill. Sweep up material for disposal when absorption is complete.

Dispose of the contaminated material in accordance with STATE and/or LOCAL recommendations.

**SAFETY DIRECTIONS**

Avoid inhalation or skin contact of spray mist. Consult the label of the product(s) used for instructions on protective clothing requirements.

**FIRST AID**

If poisoning occurs, contact a Doctor or Poisons Information Centre **Ph: 13 1126** Australia wide.

**MATERIAL SAFETY DATA SHEET**

Additional information is listed in the Material Safety Data Sheet (MSDS) for AUSTEC SPRAYING OIL, which is available from Grevillia Ag Pty Ltd on request.

**CONDITIONS OF SALE**

AUSTEC SPRAYING OIL is supplied as a high grade product and is suitable for the purpose which it is expressly intended and must be used in accordance with the directions for use. Because **Grevillia Ag** has no control over handling, storage or use of AUSTEC SPRAYING OIL, the business makes no express or implied representations or warranty (other than non excludable statutory warranties). This product is sold on the condition that the buyer and/or user assumes all risks of the handling and use of AUSTEC SPRAYING OIL as well as the results obtained from its use.
